

From	To		Topic	Mode	Lecturers
Monday August 16					
7:30	8:30	Obligotary quick COVID test for all onsite participants			
9:00	10:30	Lecture 1	Introduction to household decision making and human capital and lifecycle models	Onsite	John Rust
10:45	12:15	Lecture 2	Structural estimation of discrete decision problems (NFXP and MPEC)	Onsite	John Rust, Bertel Schjerning
12:15	13:15	Lunch			
13:15	14:45	Lecture 3	Inversioin theorem, overview of CCP estimation, applications	Online (-6h)	Robert A. Miller
15:00	16:30	Lecture 4	Extensions: Unobserved Heterogeneity and Finite Dependence	Online (-6h)	Robert A. Miller
16:45	18:00	Social event	Ice breaking in preparation for research workshops	Onsite	Everybody
Tuesday August 17					
9:00	10:30	Lecture 4	Career choice and human capital, overview and applications	Online (+8h)	Michael Keane
10:45	12:15	Lecture 5	Continuous and discrete-continuous decision problems, EGM and DCEGM	Onsite	Fedor Iskhakov
12:15	13:15	Lunch			
13:15	14:45	Research workshop	Student presentations (3x30min)	Onsite	All lecturers
15:00	16:30	Lecture 6	Software for estimating life-cycle models	Onsite	Hans-Martin Gaudecker
16:45	18:15	Research workshop	Student presentations (6x30min), general discussion and knowledge sharing	Onsite	All lecturers
Wednesday August 18					
7:30	8:30	Obligotary quick COVID test for all onsite participants			
9:00	10:30	Lecture 7	Estimating Life-Cycle Models of Saving and Labour Supply	Online (-1h)	Hamish Low
10:45	12:15	Lecture 8	Human Capital and Sorting in the Marriage Market	Online (-1h)	Monica Costa Dias
12:15	13:15	Lunch			
13:15	14:45	Research workshop	Student presentations (3x30min)	Onsite	All lecturers
15:00	16:30	Lecture 12	Measuring and estimating health dynamics over the lifecycle	Online (-6h)	Karen Kopecky
16:45	18:15	Research workshop	Student presentations (3x30min), general discussion and knowledge sharing	Onsite	All lecturers
Thursday August 19, Friday August 20					
<u>DSE2021 Conference</u>					
7:30	8:30	Friday	Obligotary quick COVID test for all onsite participants		
Saturday August 21					
9:00	10:30	Lecture 10	Measurement and Economics: New measures to model individual behaviour	Online (-1h)	Orazio Attanasio
10:45	12:15	Lecture 11	Saving during retirement	Onsite	Eric French
12:15	13:15	Lunch			
13:15	14:45	Research workshop	Student presentations (3x30min)	Onsite	All lecturers
15:00	16:30	Lecture 12	The importance of modeling both couples and singles	Online (-7h)	Mariacristina De Nardi
16:45	18:15	Lecture 16	Interactions as Investments	Online (-7h)	James Heckman
Sunday August 22					
9:00	10:30	Lecture 13	Stationary and Nonstationary Equilibrium in Durable Goods Markets	Onsite	John Rust
10:45	12:15	Lecture 14	Estimation of static games with multiple equilibria	Onsite	Bertel Schjerning
12:15	13:15	Lunch			
13:15	14:45	Lecture 15	Solving and estimating directional dynamic games	Onsite	Fedor Iskhakov
15:00	18:00	Research workshop	Student presentations (6x30min), general discussion and knowledge sharing (multiple agent models)	Onsite	All lecturers
